

NIKITA DHAR

Full Stack Developer | MERN Stack Developer

📞 91 7828241959 @ nikitadhar142017@gmail.com LinkedIn | GitHub 📍 India

SUMMARY

I am a Full Stack Developer with over 2 years of experience in building scalable web applications utilizing technologies like React.js, Node.js, and MongoDB. My expertise includes REST API development, JWT authentication, and responsive design, making me passionate about solving complex challenges in application development

EXPERIENCE

Software Developer (MERN Stack)

Eulogik

📅 10/2023 - 02/2025 📍 Bhopal

- A software development company specializing in building scalable web applications
- Developed scalable MERN-style web applications using ReactJS, Node.js, LoopBack 3, and MongoDB with JWT authentication and REST API integration
 - Designed and implemented APIs for real-time communication and role-based authentication systems, enhancing security and user experience
 - Integrated MongoDB, optimizing storage and retrieval of large datasets using pagination and filtering, improving API performance and response times
 - Collaborated with cross-functional teams to ensure smooth project delivery and resolved critical bugs within tight deadlines

Full Stack Developer (Reactjs + Django)

I-Guru

📅 12/2022 - 06/2023 📍 Bhopal

- A company providing digital marketing and development services
- Developed responsive and user-friendly web interfaces using React.js, focusing on reusable components, state management, and performance optimization
 - Collaborated on full-stack development by integrating front-end applications with Django REST APIs for seamless data flow and functionality
 - Designed and implemented backend logic using Django, including API development, authentication, and server-side validations
 - Managed and optimized relational data using MySQL, including database schema design, queries, and CRUD operations
 - Worked on end-to-end project development, from UI implementation to backend integration, ensuring code quality, scalability, and maintainability

EDUCATION

Internship

10x Academy

📅 06/2022 - 11/2022 📍 Hyderabad

Master of Computer Applications

Bansal Institute of Science and Technology

📅 01/2024 - 12/2026 📍 Bhopal, M.P

STRENGTHS

Soft Skills

Fast Adaptability, Active Reasoning, Team Collaboration, Strategic Thinking, Effective Communication

KEY ACHIEVEMENTS

- Full-Stack AI Chat Application and Notes Sharing Application**
Successfully developed an AI-powered chat application and a notes sharing platform improving user engagement and resource sharing

SKILLS

React	Node.js	MongoDB	Gmail
GitHub	LoopBack	REST	JWT
JavaScript	ES6+	TypeScript	Python
HTML	Express.js	Django	Redux
Git	Postman	Visual Studio Code	SQL
JSON	Linux	Dataflow	Vercel

PROJECTS

AI Chat Application

📅 01/2023 - Present

- An AI chat application that provides conversational responses using AI technology
- Developed a full-stack AI-powered chat application using ReactJS for the frontend and Node.js/Express for the backend
 - Integrated OpenAI / OpenRouter APIs for generating AI-based conversational responses
 - Implemented secure JWT authentication with HTTP-only cookies and protected routes for user sessions
 - Built responsive UI components using Material-UI and managed application state efficiently
 - Optimized backend APIs and MongoDB queries for better performance and scalability
 - Added chat history management and real-time user interaction features

Notes Sharing Application

📅 01/2023 - Present

- A platform that allows users to share and access notes in an efficient manner
- Developed a notes sharing platform where users can upload, manage, and access study materials efficiently
 - Built reusable and responsive frontend components using ReactJS
 - Designed backend services and REST APIs using LoopBack 3 for secure data handling
 - Implemented CRUD operations, authentication, and file/document management functionalities
 - Improved application performance through optimized API handling and database queries
